EDUCATION

Bachelor of Technology (B.Tech) in Computer Science at Graphic Era Hill University, Bhimtal, Uttarakhand with a current **CGPA: 8.80** (Expected graduation:2026). Relevant Coursework includes **Data Structures and Algorithms, Design and Analysis of Algorithms, Object-Oriented Programming.**

Intermediate, G. D. Birla Memorial School

90.4% (2022)

High School, G. D. Birla Memorial School

88.8% (2020)

SKILLS

- **Programming Languages:** C, C++, Python
- **Web Development:** HTML, CSS, JavaScript, Flask
- **Tools and Platforms:** Git, GitHub, Jupyter Notebook, Power BI
- **Database Management:** MySQL
- **Libraries/Frameworks:** Pandas, NumPy, OpenCV, Matplotlib, Seaborn
- **Core Concepts:** DSA, OOP, DBMS, Operating Systems
- **Soft Skills:** Problem-solving, Communication, Teamwork, Leadership

PROJECTS

• **Sorting Algorithm Visualizer - Interactive Web App**

Developed a real-time sorting visualizer using **Python** and **Streamlit** featuring six algorithms (Bubble, Insertion, Selection, Merge, Quick, Heap) with animated bars, performance counters, and code previews in **Python** and **C++**. Included controls for array size, speed, and order.

 [Live Demo](#) | [GitHub](#)

• **LappyTag: Laptop Price Prediction Web App**

Built and deployed an ML-powered web app using **Python**, **Streamlit**, **Scikit-learn**, and **Pickle** to predict laptop prices based on specifications like processor (CPU), graphics card (GPU), memory (RAM), and storage capacity. Engineered a regression model with **Pandas** and **NumPy**, and integrated it into an interactive UI for real-time predictions.

 [Live Demo](#) | [GitHub](#)

• **GestureTune: Hands-Free Volume Control**

Built a **Python** system for gesture-controlled volume adjustment using **MediaPipe** and **OpenCV**. Automated control using **PyAutoGUI**, with visual feedback enhancing accessibility and interaction.

[GitHub](#)

• **Power BI Projects**

Created interactive dashboards with **Power BI** to analyze business performance and trends.

[GitHub](#)

ACHIEVEMENTS

- Solved **640+** problems on **LeetCode**, showcasing strong **DSA** and coding pattern skills.
- Participated in multiple **hackathons**, building real-time web applications and **collaborating** in cross-functional teams under tight deadlines.
- Contributed to **open-source projects**, improving **code efficiency** by **20%** through optimized implementations.
- Completed **10+ online courses** in **Python**, **Data Science**, **Web Development**, and **Machine Learning**.
- Improved **ML model accuracy** by **15%** during Laptop Price Prediction project through advanced tuning.
- Actively attended **workshops and webinars** on **AI**, **ML**, and **web development** trends to stay updated.

EXTRA-CURRICULAR ACTIVITIES

- **Guided** junior students in mastering **C++ fundamentals** and **competitive DSA** problem-solving strategies.
- **Organized and managed** university-level tech events with **100+ participants**.
- Participated in **inter-college** programming quizzes and logic-based competitions.
- Volunteered at **campus workshops** by managing registration, setup, and on-the-spot technical guidance.

CERTIFICATIONS

- **Virtual Internship** – Deloitte Technology Job Simulation, Forage.
- Explore **Machine Learning** Using **Python**, Infosys Springboard
- Introduction to **Python** for **Data Science**

INTERESTS AND HOBBIES

Problem-solving, creative coding, digital art, reading tech blogs
